

Disability Rights Wisconsin Eau Claire Listening Session

The Board of Directors of Disability Rights Wisconsin (DRW) will be conducting a Listening Session on Friday, June 25, 2010 in Eau Claire.

DRW is the designated protection and advocacy agency for people with developmental, physical, or sensory disabilities and people with mental illness in Wisconsin. DRW engages in a variety of advocacy strategies, including one-on-one advocacy for individuals and their families; systems advocacy (influencing state and county policy, legislative advocacy and coalition building); class action and impact litigation; and providing training to people with disabilities, their family members, human service professionals, attorneys and others on a variety of disability related topics.

The DRW Board wants to hear from people with disabilities, their families, friends, disability activists, service providers and other concerned individuals about your ideas for the future of disability advocacy and the issues that need to be addressed in the areas of special education, developmental disability, mental health and physical disability services and disability rights.
