

## 2013 Wisconsin Low Cost Plans

Data as of September 4, 2012. Includes 2013 approved contracts/plans. Employer sponsored plans (800 series) are excluded. Plans under sanction are not shown.

Notes: Data are subject to change as contracts are finalized. For 2013, enhanced alternative plans may offer additional gap coverage which is calculated as the percentage of "generic" formulary products with coverage above and beyond the 2013 standard "generic" coverage gap cost-sharing benefit and/or the percentage of "brand" formulary products covered in addition to the coverage gap discount for applicable drugs. Additional gap coverage levels are determined separately for formulary generic and brand products and are described as follows: "All": 100% of formulary drugs are covered through the gap, "Many": ≥65% to <100% of formulary drugs are covered through the gap, "Some": ≥10% to <65% of formulary drugs are covered through the gap, "Few": >0% to <10% of formulary drugs are covered through the gap (and must also be >15 products covered through the gap), "No Gap Coverage": 0% of formulary drugs are covered through the gap (or ≤15 products covered through the gap). A label of "All Formulary Drugs" is applied for plans that cover 100% of "generic" and 100% of "brand" products (either by covering all formulary drug products in the gap or by having no initial coverage limit).

Changes: CVS Caremark Value from 2012 was renamed SilverScript Basic. SilverScript Basic also purchased 2012 Plans Health Net Orange Option 1 and Community CCRx Basic. Members from those two plans in 2012 will be in SilverScript Basic for 2013 unless the beneficiary makes a change. HealthSpring Prescription Drug Plan - Reg 16 is no longer a low cost plan in 2012. Autoenrollees in that plan in 2012 will be randomly reassigned to a new low cost plan for 2013. Choosers will stay in that plan unless they proactively switch plans. New plans for 2013 are: AARP Medicare Rx Saver Plus, Reader's Digest Value Rx, and SmartD Rx Saver.
