

Are you a person with a disability
that has been a victim of a crime?

Do you know someone who is?

Are you afraid to ask for help?

Disability Rights Wisconsin can help you.

The **Victim Advocacy Program** of Disability Rights Wisconsin provides direct service to individuals with disabilities who experience crime, regardless of if it has been reported. Victim Advocacy Specialists work to ensure that each eligible person receives the advocacy, services, and support necessary to move forward, find justice, and ensure safety and stability in whatever form the victim/survivor needs.

Advocacy services are **free and confidential** to victims and their families.
