The Key to Your Child's Future: Understanding the New IEP Forms for Student Success

The training will focus on the new IEP forms that are being used in the Milwaukee Public Schools for students with IEPs. The State Department of Public Instruction developed the college and career ready IEP forms to help give parents a greater voice in the IEP process. The goal is to help you be an active participant in your child's IEP. Bring your child's IEP to the meeting and get tips to create a better IEP and understand the changes in your child's IEP.
